

Good Evening,

I would just like state I disagree with expanding the Red Flag gun law.

To spread fear on Americans who may use their guns to target practice or hunt 10 days out of the year for 2/3 hours a day. Is UnAmerican. Gun owners today may have a family history of upland game hunting with hunting dogs also great family dogs.

I walked behind my father and Mr. Slate for Lebanon Ct at the age of 3. Mr. Slate marched across Europe in WW2. Deer hunting camps to sum us like getting away to Cancun. One group carries guns the other drink liquor. Thinking of that more people involved with liquor kill more people involved with guns. Yes are their radicals gun owners and radical in many other groups. We all would like to control the radicals to live in harmony. We need to change the thinking I do recall the Jackson 5 singing One Bad Apple don't spoil you know the rest.

Thanks
